

Know Rett. See the person. Know the story.

I'M SPEECHLESS FOR MARIA TODAY

Maria is my daughter. She has Rett syndrome.
Today, I'm going without spoken speech for one workday
to raise awareness during Rett Syndrome Awareness Month.

Why this matters

- ♥ Maria doesn't use spoken words to communicate.
- ♥ She also can't use her hands purposefully, which means sign language isn't a realistic option for her.
- ♥ That doesn't mean she has nothing to say — communication just takes more time, support and different tools.

Please talk to me normally.
I can respond using the
communication board on the other side.

Maria loves music and has strong
opinions about songs.
